LET'S MOVE TO PARIS! DO YOU HAVE WHAT

PARIS

IT TAKES TO MOVE TO THE CITY OF LIGHT?

JOYEUX
NOEL 2018!

2018 was a challenging year to say the least. At the beginning of the year France wasn't even on the radar. But another opportunity abroad enticed us to make the move.

Three very hectic months took us from far flung Easter Island to putting boots on the ground in Paris. Then another few months to settle in at our new apartment within walking distance of the Eiffel Tower.

It was not until October that we truly felt settled and we took some short trips to Romania, the French Riviera and Belgium.

Sam now works for the OECD Nuclear Energy Agency and misses her students and colleagues at VCU; and Eric continues to work remotely for Data Directions.

The dogs miss their yard but enjoy the long walks exploring all the nooks and crannies of Paris. They have fully adopted "cafe culture".

Our new digits are below. Please stop for a visit the next time you find yourself munching on a baguette in the City of Light!

63 Ave de la Motte-Picquet
75015 Paris
France
